About

Jacqueline Bell, FNP-C, is a dedicated Family Nurse Practitioner at Ridgecrest Regional Hospital. A Ridgecrest native, she earned her Master of Science in Nursing from Walden University in 2021, following a Bachelor of Science in Nursing at California State University, Bakersfield. Before transitioning into advanced practice, Jacqueline served as a registered nurse on the medical-surgical floor at RRH from 2015 to 2021. She has since gained valuable experience in both adult primary care and addiction medicine.

Jacqueline's passion for healthcare stems from her desire to make a positive impact on patients' lives through compassionate, evidence-based care. In addition to her clinical work, she teaches in the Allied Health Department at Cerro Coso Community College and is actively involved in her three children's education, frequently volunteering at their school. When she isn't caring for patients or teaching, Jacqueline enjoys hiking, camping, baking, and reading. She is grateful for the opportunity to serve her hometown community and looks forward to improving the health and well-being of those she serves.
